CGI-0005

CERTAIN AROMATIC MONOCYCLES AS KINASE MODULATORS

ABSTRACT

[0073] Compound having Formula 1:

$$\begin{array}{c}
(Z_1)_{\overline{m}} - R_1 \\
W - (Z_2)_{\overline{m}} - R_2 \\
[(Z_3)_{\overline{m}} - R_3]_n
\end{array}$$
(1)

wherein W is a monocyclic ring having the structure

are useful as modulators of kinase activity.
